

Experience the wonder of astronomy and the excitement of space exploration. Gladwin Planetarium, the only planetarium between Los Angeles and San Francisco, features live, multimedia shows that include a seasonal tour of the night sky. The adjoining Space Lab offers a variety of interactive exhibits to interest visitors of all ages.

Gladwin Planetarium Shows

The Planetarium schedule includes shows designed for general audiences, for families with young children, and for Spanish-speakers.

Palmer Observatory

Star Parties, featuring telescope observations of stars and planets, are offered the second Saturday of each month.

Astronomical Unit

The Museum's astronomy club, the Astronomical Unit, presents monthly astronomy lectures on the first Friday of each month as part of their regular meeting.

Astronomy Hotline

For more information about astronomy events at the Museum, call (805) 682-4711, ext. 405.
