ABOUT THE SANTA BARBARA CHANNEL

- 70 plus miles of fish and fun-filled mainland coast featuring old growth kelp forests, sandy beaches, rocky points, reefs, wrecks, and dropoffs.
- Fishing gets hot all throughout the year.
- The Channel features pelagic seabirds, and the Channel Isles offer an opportunity to see the brilliant blue Island Scrub Jay, plus island shore birds.
- Migrating whales, frolicking dolphins, playful seals, and silent sharks — phantoms of the channel, all want to fill your camera lens with the memories of a lifetime.

Kids learn how to fish

Capt. David Bacon
