

Although it is a small hub airport, Santa Barbara is the busiest airport along the California coast between Los Angeles and San Jose. There is non-stop service between seven international airports – San Francisco, Denver, Phoenix, Las Vegas, San Jose, Salt Lake City and Los Angeles. Connections between these airports from domestic and international cities provide those flying into and out of Santa Barbara with more than 200 single-stop possibilities. Jet service is available between SBA and San Francisco, Denver, Phoenix, Las Vegas, Los Angeles and Salt Lake City. Remember to arrive at least 90 minutes prior to flight departure time (2 hours for international travel).

Currently the Airport serves over 700,000 passengers annually. An Airport Master Plan proposed for implementation within the next several years includes expansion of the Airline Terminal.

Airline Terminal Features:

- Restaurant, ATM, snack & coffee cart, gift shop/newsstand and business center.
- Public telephones including a TDD
- Smarte Carts
- Expanded skycap services available at airline terminal curbside.
- Handicap accessible facilities.
- Spanish Colonial Revival architecture in a charming garden setting.

Check the fares from Santa Barbara Airport first. You help support the Airport and local economy every time you book a flight from SBA. Last year, the UCSB Economic Forecast Project found that the Airport has an annual economic impact of more than a half billion dollars on the Santa Barbara region – all at no cost to the local taxpayer.
