

# SANTA • BARBARA BOTANIC • GARDEN

Experience  
the Natural  
Beauty of  
California's  
Native Flora

Located on 65 acres in the foothills just above the city, the Santa Barbara Botanic Garden features over 1000 species of rare and indigenous California plants illustrating representative habitats or landscape applications. Walk through meadows and canyons, a redwood forest, across historic Mission Dam, and along ridge tops that offer sweeping views of the Channel Islands.

- Journey through a living museum
- 5.5 miles of paths through stunning landscapes
- Open year-round
- Minutes from downtown Santa Barbara

The Santa Barbara Botanic Garden is a delightful place to visit. The colors, scents, and sounds of nature will refresh and enchant you. Founded in 1926, the Garden is a nonprofit institution dedicated to advancing the knowledge and understanding of plant life. The Garden's active research, education, conservation, and horticulture programs are nationally recognized for contributions to the study of plants native to California.
